

3435 ASTROZON CT.
COLORADO SPRINGS 80910

It's almost the end of the year, is your fleet up to date on DOT annual inspections?

The end of the year is fast approaching. Are your trucks and trailers up to date on their annual inspections? With the new CSA scoring system implemented last year it is important that your fleet is kept up to date and compliant with federal and state regulations. Violations can be costly, both financially and by increasing your CSA score. MTR can help by providing periodical and annual inspections of your fleet.

Our certified technicians will perform annual inspections that ensure your trucks and trailers are safe, compliant, and up to date. Some of the most common and costly violations can be found and repaired during an inspection. Minor repairs found can be done on the spot while larger repairs can usually be done that day or within 24 hours. So call MTR now to schedule any inspections you may need.

Common Violations

- Tire defects
- Lighting problems
- Brake adjustment/wear
- Air line wear/damage
- Suspension defects
- Proof of annual inspection

Stay safe, stay compliant.
